WE ALL LOSE WHEN GREASE IS POURED DOWN THE DRAIN

Brunswick County Public Utilities
Sanitary Sewer Pretreatment

For more information, visit
[brunswickcountync.gov/fog-flush/](https://www.brunswickcountync.gov/fog-flush/)

#1

Never pour grease down the drain after you have cooked. It creates problems down the line for everyone.

Brunswick County Public Utilities

www.brunswickcountync.gov/fog-flush/

#2

**Pour leftover grease
into a disposal container
and place into trash can.**

Remember:

Scrape it. Can it. Trash it.

Brunswick County Public Utilities

#3

When grease enters the sewer system, it turns into a solid creating a blockage.

Brunswick County Public Utilities

www.brunswickcountync.gov/fog-flush/

#4

When the lines get clogged with grease, it won't allow wastewater to flow, therefore an overflow occurs.

Brunswick County Public Utilities

www.brunswickcountync.gov/fog-flush/

#5

Environmental impacts occur when sewer spills happen.

Brunswick County Public Utilities

www.brunswickcountync.gov/fog-flush/

#6

**Not only are spills
unsightly, but they
could be dangerous to
your health.**

Brunswick County Public Utilities

#7

It costs time and (your) money to maintain and clean up sewer spills.

Brunswick County Public Utilities

#8

We need you to do your part to keep the pipes flowing.

WHAT CAN YOU DO TO HELP?

1

Never flush disposable wipes down the toilet, even if they are advertised as flushable.

2

Never put grease down the sink, in the toilet, or down a floor drain.

3

Always scrape pots, pans, and dishes clean in the trash can before washing them in the sink or placing them in dishwasher.
